

Directions to the Friedman Building parking lot

Heading west on University Blvd. you will come to a large intersection at Wesbrook Mall, easily recognizable by the giant “UBC” letters on the boulevard! There is also a *Shoppers Drug Mart* on the south-west corner.

At the intersection light there are three lanes. Make sure to be in the middle lane (it has directional arrows for straight and left). Turn left. This lane will keep you in the curbside lane on Wesbrook Mall.

Once you have turned onto Wesbrook Mall look immediately for a driveway and two blue signs (“Public Parking” and “Friedman Building”).

Turn right into the driveway and proceed down the ramp.

After the short ramp, you will come to a parking lot area. Find an available space and pay for your parking at the pay station.

Note: There are three dedicated parking spaces for those who have a parking permit for people with disabilities.

To reach the clinic, walk to the marked entrance for the Friedman Building, on the south side of the parking lot.

There is an elevator in the lobby which you can take to the second floor. Exit the elevator to your left, then make the next left to reach the clinic entrance (Room 244).

The entrance ramp to the Friedman parking lot can only be approached from **Wesbrook Mall** southbound (i.e., driving south on Wesbrook from Chancellor Blvd (via 4th Avenue) or via a left turn from University Blvd. onto Wesbrook).
